

Dragonflies of the Siskiyou

Offered through the **Siskiyou Field Institute** at
Flowing Waters Retreat
at Mt. Shasta
by Kathy & Dave Biggs
Authors of ***Common Dragonflies of California***
July 17 & 18, 2015

Day One introduces the fascinating world of dragonflies: their unique biology, life cycles and identification of lowland species.

A morning presentation is followed by an afternoon in the field.

Day Two introduces the uncommon species that occur in our mountains and on our streams. That afternoon we will carpool to a beautiful high mountain lake, stream and fen.
